Conservation District

Accepting Applications NOW!

Jefferson County Water Quality Improvement Project

YOU ARE ELIGIBLE

Do you value clean water for drinking, fishing, swimming, and farming? Do you want to help keep our local streams and rivers clean while also improving the health of the Chesapeake Bay? We can help you do both!

You are eligible for a **50% cost-share on septic pumping** up to \$150.

The purpose of this project is to keep Jefferson County waters clean and to reduce pollutants such as bacteria that can get into our local waterways. Special funding to the Eastern Panhandle Conservation District has made this project possible for all residents of Jefferson County.

Your application must be approved by the Eastern Panhandle Conservation District board **before** getting your septic pumped. After you are approved, you may get your septic pumped and submit invoice paperwork for reimbursement.
